**Come to the Roscoe Campsite Park and participate in two days of Fly Casting Instruction.**

Piero Letizia is the founder of the Advanced Fly Casting School-International. Piero has developed a unique casting technique known in Europe as PL&EC (Progressive Lines and Easy Casting) which allows the fly fisher to perform complex fly presentations.

Piero will demonstrate a variety of casting techniques for the beginner to the expert caster who wishes to learn new techniques including the new Tenkara Method.

Every visitor staying in the park, including Ladies and Youngsters, will have the opportunity to see casting demonstrations and practice casting with Piero.
