# SOME KIND OF WONDERFUL

## RCP OUTFITTERS REIMAGINES GLAMPING IN THE CATSKILLS

The Catskills are back! So say recent magazine articles, reviews and social media posts trumpeting the wonderful rolling hills and magical waters of this majestic landscape. But as far as we're concerned, this area of Upstate New York has always been—and will always be—a little slice of heaven on earth. Few can resist the natural beauty and soulful peace that greet you as the mist burns off and the sun rises over these gloriously green woodlands. One of the best ways to experience the Catskills is at the suite of properties owned by **RCP Outfitters**. These properties include the **Roscoe Campsite Park**, **Catskill Conestoga Wagon Outpost**, **RCP Outfitters Adventure Shack** and the newly-acquired

**Trout Town Farms**. All of the properties are located minutes from each other along the Beaverkill River, a world-famous trout stream, and each accommodation offers an opportunity to experience the others. All RCP properties offer luxury lodging, along with activities and provisions that make it the best (and easiest) way to plan an adventure in the Catskills. Your trip can be spur of the moment or planned out months in advance—the choice is yours. Think of it as a guest ranch that allows you to choose what you want to experience each day based on your mood, the time you have, the weather and all of the other factors that come into play when traveling.

Above: A bald eagle keeps watch along the Beaverkill River at Roscoe Campsite Park.

RCP Outfitters has been operating **Roscoe Campsite Park** since 2014. During this time the Park has become one the premiere adventure destinations, conveniently located less than a mile from Main Street in Roscoe NY (aka, "Trout Town, USA"). Set on the banks of the Beaverkill River, just past the world famous Junction Pool, this property offers something for everyone.

◀ New this year are our Grande Lodge Tents, which offer a spectacular way to experience a unique style of rustic luxury living, complete with a full bathroom (think: spacious shower and a claw-foot bathtub to soak in after a long day of adventure in the park). There are also Deluxe Cabins boasting everything a small home might have, and Woodland Cabins situated right on the banks of the Beaverkill River. Cozy, Barn Style Bunk Cabins nestle in a pine forest and are a perfect setting for family gatherings, while the Themed Cabins are quite literally a "Night at the Museum," decorated with artifacts and memorabilia that celebrate America and beyond. The Army and Navy cabins pay tribute to our veterans, showcasing military equipment and uniforms of our great armed forces and the wars they fought to protect our freedoms. The Frontier and Western Cabins showcase the foundations of how this country came to be. This is glamping at its finest.

The park is loaded with family activities and features large common spaces for group gatherings. Water sports include tubing, kayaking, canoeing and fishing, or you can just hang out on the rock beach and soak up the sun. Live music and events are offered throughout the season, along with twin patio pavilions and fire place, the children's log playground, our Local Lady Food Truck outdoor cafe (set right next to the basketball court), and our very own RCP Mining Sluice. This mine is a great way for kids to learn gemology and history of the earth's treasures. Kayaks, canoes, paddle boards and tube rentals are available at the Park for use on site or at one of RCP's other nearby properties. With a range of seasonal sites for RV and travel trailers, along with accommodations for grand travel vans, Roscoe Campsite Park makes an excellent base camp, whether for an afternoon adventure, a day trip, an overnight or weekend stay—or an entire season in the Catskills.

We have a small herd of Award-winning Alpacas and are expecting a baby cria in the spring of 2022 from Pixie Dust, one of our females.

All RCP properties offer premiere lodging, along with activities and provisions that make it the best (and easiest) way to plan an adventure in the Catskills.

The **Adventure Shack** in the heart of town will be renting E-bikes, mountain and cruiser bikes for use on the many trails around Roscoe. The store is located in the Trout Town Square and carries provisions, local goods and adventure gear. In addition to bike rentals, it offers canoe, kayak and paddle board rentals, along with day passes for each of RCP's properties. We will also be featuring produce and locally sourced goods.

**Trout Town Farms**, meanwhile, is located on the Beaverkill River, a few miles down the road from the Park. A real working farm, Trout Town Farms offers the opportunity to see the inner workings of agriculture as well as being able to taste the seasonal harvest when available. Here you can take a farm tour, see our animals and shop for goods to cook over the fire. The animal roster at the farm is constantly growing, and currently includes friendly alpacas, dwarf goats, chickens and pheasants. Guests can come to learn about the animals, and even feed or take a walk with some of them. ▶

From the Farm, you can venture further downstream by canoe or kayak, (or take the road by bike or car) to the **Catskill Conestoga Wagon Outpost** ▲. This property has been highlighted as one of the most unique lodging destinations in New York State. The Outpost offers the chance to stay in a working Conestoga covered wagon that has been outfitted in rustic luxury to help guests experience the feel of early settlers making camp. The 7-acre property is home to five wagons, making it perfect for visitors who want to enjoy a relaxing mountainside stay. Offering both King Size and bunk beds, it can also elevate a group or family gathering to the next level. Complete with a common pavillon, fire grills and kettles, the Outpost has access to the Beaverkill River across the road. Seasonal events are also planned for this property, though guests have full access to RCP's other properties during their stay. ■
